Nimonik

Regulatory Compliance Software
Manage all of your requirements in one place

75+ Countries   **600,000+** Documents   **600+** Jurisdictions

Nimonik's platform allows you to identify obligations within regulations and standards, as well as centralize internal documents. It then extracts the requirements in these documents and notifies you when relevant changes are made by regulators.

Schedule your free subscription demo today to see the platform in action!
